

DELIVERING SOLUTIONS ON TIME, ALL THE TIME

TVC develops innovative voice and SMS related applications for telecommunications companies, mobile phone operators, and a range of network users. We are dedicated to developing profitable partnerships that benefit our business partners, their customers, and ourselves. Understanding today's market imperatives, our approach is founded on fast, practical and creative responses, with the emphasis on user simplicity and cost effectiveness.

MOBILE & LANDLINE ENTERTAINMENT SERVICES - KEEPS THE MONEY COMING IN

The mobile phone has become a window on the world for today's youth markets – all seeking fun, distraction and entertainment. Entertainment is becoming a major source of revenue for smart mobile and landline operators.

TVC is a leading integrator and aggregator of entertainment-related content that generates instant revenue and profit from carefully targeted markets. We are at the centre of this entertainment explosion, and can constantly bring new, dynamic and premium-revenue applications and content.
